

Don't strangle your tree. Please remove label and tie, and file label for reference. Illustrations and notes intended as a guide only. Estimated size at 20 years.

JAPANESE MAPLE

Acer palmatum

'Mikawa Yatsubusa'

Almost a natural bonsai, this very small maple is ideal for containers.

- Foliage:** Green leaves and multibranched. Leaves grow closely together producing a unique and dense leaf cover. Autumn tones are a feature in vibrant golden, orange, red and bronze hues.
- Flowers:** Insignificant
- Fruit:** Samara
- Culture:** Adaptable to a range of soil types however prefers a moist, well drained soil. Should not be planted in a highly exposed situation where hot dry winds may stress the tree and dry or burn foliage.
- Size:** 1.5 x 1.8 metres.
- Plant Care:** For more information on planting, maintenance and care visit flemings.com.au
