

CREPE MYRTLE

Lagerstroemia fauriei

'Kiowa'

Lagerstroemia fauriei 'Kiowa' combines the qualities of disease resistance, showy white flowers and ornamental bark to provide an excellent, medium size tree for a range of settings.

- Foliage:** Glossy green foliage shows excellent disease resistance. Autumn colour is a good orange-red to yellow.
- Flowers:** Long-lasting, terminal panicles of small, pure white flowers are borne from mid-summer.
- Fruit:** Tiny capsules of little significance.
- Culture:** Adaptable to a wide range of conditions with good drought and heat tolerance. Best in moist, well-drained, slightly acidic soils in a position receiving full sun. Reported to be pest free with excellent resistance to powdery mildew.
- Size:** 8 x 7 metres.
- Plant Care:** For more information on planting, maintenance and care

Prune each limb by 50% just above a bud.
Remove all broken or any unwated limbs.
