CRAB APPLE

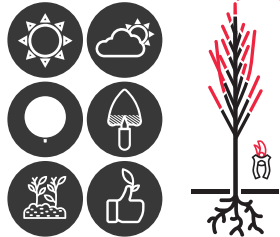

CRAB APPLE
Malus

'Mattom' Tom Matthews™

This showy selection of crab apple was introduced to Australia by Fleming's Nurseries and features a colourful display throughout the seasons. In spring, vibrant, vivid, scarlet-red flowers compliment the bronze-red foliage. The flowers are followed by an abundance of medium-sized clusters of small, dark, red-purple fruits from autumn to late winter.

- Foliage:** Mid to dark green tinged with bronze, particularly on the new growth.
- Flowers:** Brilliant, vivid, scarlet-red in spring.
- Fruit:** Clusters of small dark red-purple crab apples from autumn through to late winter.
- Culture:** Adaptable to varied soil conditions, but prefers a moist, fertile, well-drained acidic soil. Should be planted in full sun for optimum flowering and fruiting.
- Size:** 3 x 3 metres.
- Plant Care:** For more information on planting, maintenance and care visit flemings.com.au

Bare-root pruning:

Prune each limb by 50% just above a bud.
Remove all broken or unwanted limbs.
