FLOWERING CHERRY

Prunus

'Sekiyama' syn 'Kanzan'

One of the Sato-zakura Group (cultivated cherries). A very popular and prolific flowering cherry with large, double pink flowers and a strong growth habit. Good for a range of landscape uses including parks, gardens and streets.

- Foliage:** Large, dark green leaves up to 12 cm long with finely serrate margins, turning yellow to bronzy-orange in autumn. New growing tips are bronze.
- Flowers:** Purplish-pink in buds, fading with age to bright pink semi-double flowers up to 5 cm in diameter, often with 30 or more petals. Borne in dense inflorescences along slender branches in mid-spring.
- Culture:** Adaptable to a variety of site conditions, but prefers moist, well-drained fertile soils and a position receiving full sun to part-shade. Flowers best in full sun.
- Size:** 5 x 4 metres.
- Plant Care:** For more information on planting, maintenance and care visit flemings.com.au

Bare-root pruning:

Prune each limb by 50% just above a bud.
Remove all broken or unwanted limbs.
