Dwarf Pixie Crunch™ 'Co-op 33'[Ⓛ] Apple

Matures mid-season. This small, bright, crisp and tasty apple is a delight to eat straight from the tree. It has the advantage of being bred for resistance to apple scab, making it low maintenance, ideal for those looking to grow organically.

Skin: Attractive red blush on sun exposed fruit over a yellow-cream ground colour.

Flesh: Creamy-white. Juicy. Crisp. Medium texture.

Flavour: Good. Well-balanced.

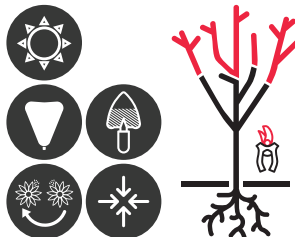

Culture: Suitable for cool temperate zones of Australia with cool winters. Possible pollination partners include Ballerina® cultivars that blossom at the same time, Crimson Crisp(TM), 'Granny Smith', 'Jonathan', 'Williams Pride'.

Size: Dwarf Fruit Tree.

Care: For more information on planting, maintenance, and care visit flemings.com.au

PBR[Ⓛ] Unauthorised commercial propagation or sale, conditioning, export, import or
stocking of propagating material of this variety is an infringement under the
Australia Plant Breeder's Rights Act 1994

Bare-root pruning:

Prune each limb by 50% just above a bud.
