

BAY LAUREL

Laurus nobilis

An evergreen large shrub or small tree with aromatic foliage, that is often used in cooking.

- Foliage:** Smooth, thick, green leaves are often dried and used as flavouring in cooking.
- Flowers:** Small yellow-green flowers are produced at the leaf base.
- Fruit:** Fruit is formed on female trees only and is a small black drupe containing a single seed.
- Culture:** Adaptable to a range of conditions, but prefers moist, well-drained soils. Tolerant of frost, heat and drought once established. Can be pruned to maintain desired shape and is ideally suited to topiary and hedges. Forms a small tree if left unpruned.
- Size:** 6 x 3 metres.
- Care:** For more information on planting, maintenance and care visit flemings.com.au

Laurus nobilis

BAY LAUREL

Bare-root pruning:

Prune each limb by 50% just above a bud.
Remove all broken or any unwanted limbs.
